Section 1. Identification of substance/mixture and of the company/undertaking.

1.1 Product identifier:
- **Product name:** eni Rotra MP DB synth SAE 75W-90

1.2 Relevant identified uses of the substance or mixture and uses advised against:
- **Identified uses:** Lubricant
- **Uses advised against:** No uses advised against identified.

1.3 Details of the supplier of the safety data sheet:
- **Manufacturer/Supplier:** Eni Schmiertechnik GmbH
  Paradiesstr. 14, D-97080 Würzburg
  Tel. (+ 49) 931 - 900 98-0   Fax (+ 49) 931-98442
- **Advising/Support:** Technical Department, Tel. (+49) 931 900 98-145
  technik.wuerzburg@agip.de
  www.enischmiertechnik-datenblaetter.de

Section 2. Hazards identification.

2.1 Classification of the substance or mixture:
- The product has not been classified as hazardous, but needs to be labelled according to the Regulation (EU) 1272/2008 (CLP).

2.2 Label elements:
- **EUH208:** Contains organic Polysulphide, amine phosphate. May produce an allergic reaction
- **EUH210:** Safety data sheet available on request
- Other hazards: By handling of mineral oil products and chemical products no particular hazard is known when normal precautions (item 7) and personal protective equipment (item 8) are kept. The product may not be released into the environment without control.

Section 3. Composition/information on ingredients.

3.2 Mixtures:
- **General information:** Mixture of synthetic base oils with additives.

CLP: Regulation No. 1272/2008

The full text for all R-phrases and H-statements is displayed in section 16

Section 4. First aid measures.

4.1 Description of first aid measures:
- **Inhalation:** Supply fresh air, consult doctor in case of symptoms.
- **Eye contact:** Promptly wash eyes with plenty of water while lifting the eye lids.
- **Skin contact:** Wash with soap and water.
- **Ingestion:** Rinse mouth thoroughly.

4.2 Most important symptoms and effects, both acute and delayed:
- May cause skin and eye irritation.
Section 5. Fire fighting measures.

5.1 Extinguishing media:
- Suitable extinguishing agents: CO2, extinguishing powder or fog like water spraying. Fight larger fires with alcohol resistant foam or spray water with suitable tensides added.
- Unsuitable extinguishing agents: Water with a full water jet.

5.2 Special hazards arising from the substance or mixture: During fire, gases hazardous to health may be formed.

5.3 Advice for fire-fighters:
- Special fire fighting procedures: Move container from fire area if it can be done without risk. Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Collect contaminated fire fighting water separately. It must not enter drains.
- Special protective equipment for fire fighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Section 6. Accidental release measures.

6.1 Personal precautions, protective equipment and emergency procedures: In case of spills, beware of slippery floors and surfaces.

6.2 Environmental precautions: Prevent from spreading (e.g. by binding or oil barriers). Avoid release to the environment. Environmental manager must be informed of all major spillages. Prevent further leakage or spillage if safe to do so. Do not allow to enter drainage system, surface or ground water.

6.3 Measures and material for containment and cleaning up: Absorb with liquid binding material such as sand, diatomite, acid binders, universal binders or sawdust. Dispose of the material collected according to regulations. Stop the flow of material, if this is without risk.

6.4 Reference to other sections: See section 8 of the MSDS for personal protective equipment. See section 7 for information on safe handling. See section 13 for information on disposal.

Section 7. Handling and Storage.

7.1 Precautions for safe handling: Prevent formation of aerosols. Do not eat, drink or smoke when working with the product. Take usual precautions when handling mineral oil products or chemical products. Observe good industrial hygiene practices. Provide adequate ventilation.

7.2 Conditions for safe storage, including any incompatibilities: Local regulations concerning handling and storage of water polluting products have to be followed. Prevent formation of aerosols. Do not heat up to temperatures close to the Flashpoint.

7.3 Specific end use(s): No data available

Storage class: 10, combustible liquids

Section 8. Exposure controls/personal protection.

8.1 Control parameters:
- Occupational exposure limits: None of the components have assigned exposure limits.

8.2 Exposure controls:
- Appropriate engineering controls: Provide adequate ventilation. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment:
- General information: Wash hands before breaks and after work. Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
The usual precautionary measures should be adhered to in handling the chemicals or the mineral oil products.

Eye/face protection: Safety glasses (EN 166) recommended during refilling.

Skin protection:

Hand protection: Material: Nitrile butyl rubber (NBR). Min. Breakthrough time: >= 480 min. Recommended thickness of the material: >= 0,38 mm

Avoid long-term and repeated skin contact. Suitable gloves can be recommended by the glove supplier. Use skin protection cream for preventive skin protection. Protective gloves, where permitted in accordance to safety directions. The exact breakthrough time has to be found out by the manufacturer of the protective gloves and has to be observed.

Other: Do not carry cleaning cloths impregnated with the product in trouser pockets. Wear suitable protective clothing.

Respiratory protection: Ensure good ventilation/exhaustion at the workplace. Avoid breathing vapour/aerosol.

Thermal hazards: Not known

Hygiene measures: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.

Environmental controls: No data available

Section 9. Physical and chemical properties.

9.1 Information on basic physical and chemical properties:

Appearance:

Physical state: Liquid
Form: Liquid
Colour: Yellow
Odour: Characteristic
Odour threshold: Not applicable for mixtures.

pH: Not applicable
Freezing point: Not applicable for mixtures.
Boiling point: Value not relevant for classification.
Flashpoint: 200°C
Evaporation rate: Not applicable for mixtures.

Flammability (solid, gas): Value not relevant for classification
Flammability limit – upper (%): Not applicable for mixtures.
Flammability limit – lower (%): Not applicable for mixtures.
Vapour pressure: Not applicable for mixtures.
Vapour density (air=1): Not applicable for mixtures.

Density at 15°C: 0,87 g/ml

Solubility(ies):

Solubility in water: Insoluble in water
Solubility (other): No data available
Partition coefficient (n-octanol/water): Not applicable for mixtures.

Auto ignition temperature: Value not relevant for classification
Decomposition temperature: Value not relevant for classification
Kin. Viscosity at 40°C: 130 mm²/s
Explosive properties: Value not relevant for classification
Oxidising properties: Value not relevant for classification

9.2 Other information: No data available
Section 10. Stability and reactivity.

10.1 Reactivity: Stable under normal use conditions.
10.2 Chemical stability: Stable under normal use conditions.
10.3 Possibility of hazardous reactions: Stable under normal use conditions.
10.4 Conditions to avoid: Stable under normal use conditions.
10.5 Incompatible materials: Strong oxidising substances, strong acids, strong bases.
10.6 Hazardous decomposition products: Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

Section 11. Toxicological information.

11.1 Information on toxicological effects:
Acute toxicity:
Oral:
Product: ATEmix: 28.985 mg/kg
Specified substance(s): organic polysulphide: LD 50 (Rat): 6.500 mg/kg
amine phosphate: LD 50 (Rat): > 2.001 mg/kg
Dermal:
Product: Not classified for acute toxicity based on available data.
Inhalation:
Product: Not classified for acute toxicity based on available data.
Skin corrosion/irritation:
Product: Based on available data, the classification criteria are not met.
Serious eye damage/eye irritation:
Product: Based on available data, the classification criteria are not met.
Respiratory or skin sensitisation:
Product: Experimental data has shown that the concentration of potentially sensitizing components present in this product does not induce skin sensitization.
Germ cell mutagenicity:
Product: Based on available data, the classification criteria are not met.
Carcinogenicity:
Product: Based on available data, the classification criteria are not met.
Reproductive toxicity:
Product: Based on available data, the classification criteria are not met.
Specific target organ toxicity – single exposure:
Product: Based on available data, the classification criteria are not met.
Specific target organ toxicity – repeated exposure:
Product: Based on available data, the classification criteria are not met.
Aspiration hazard:
Product: Based on available data, the classification criteria are not met.
Other adverse effects: No data available

Section 12. Ecological information.

12.1 Toxicity:
Acute toxicity:
Product: Based on available data, the classification criteria are not met.
Fish:
Specified substance(s): amine phosphate: LC 50 (Fish, 96 h): 24 mg/l
Aquatic invertebrates:
Specified substance(s): organic polysulphide: EC 50 (Water Flea, 48 h): 63 mg/l (OECD 202)
amine phosphate: EC 50 (Water Flea, 48 h): 91.4 mg/l
Chronic toxicity:
Product: Based on available data, the classification criteria are not met.
Aquatic invertebrates: amine phosphate: NOEC (Water flea, 21 d): 0,12 mg/l
Toxicity to aquatic plants: organic polysulphide: EC 50 (Alga, 72 h): >101 mg/l (OECD 201)

12.2 Persistence and degradability:
Biodegradation: Not applicable for mixtures.
Product: organic polysulphide: 13% (28 d, OECD 301B) Not readily degradable

12.3 Bioaccumulative potential:
Product: Not applicable for mixtures.

12.4 Mobility in soil:
Product: Not applicable for mixtures.

12.5 Results of PBT and vPvB assessment: This product does not contain any substances fulfilling the PBT/vPvB criteria.

12.6 Other adverse effects: No data available
Water hazard class (WGK): 2 – water-endangering

Section 13. Disposal considerations.

13.1 Waste treatment methods:
General information: Dispose in accordance with all applicable regulations.
Disposal methods: Do not empty into drains; dispose of this material and its container in a safe way. When storing used products, ensure that the waste categories and mixing instructions are observed.
European Waste Codes: 13 06 06* synthetic engine, gear and lubricating oils

Section 14. Transport information.

ADR/RID: Non-dangerous goods
ADN: Non-dangerous goods
IMDG: Non-dangerous goods
IATA: Non-dangerous goods

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC-Code: Not applicable

Section 15. Regulatory information.

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:
EU regulations:
Regulation (EC) No. 2037/2000 substances that deplete the ozone layer: None
Regulation (EC) No. 850/2004 on persistent organic pollutants: None

15.2 Chemical safety assessments: No chemical safety assessment has been carried out.

Section 16. Other information.

This information relates only to the specific product and may not be valid if the product is used in combination with any other material or in any process.
The informations in this sheet are according to our best knowledge at the date of printing.
Wording of the R-phrases and H-statements in section 2 and 3:

H302: Harmful if swallowed.
H317: May cause an allergic skin reaction.
H318: Causes serious eye damage.
H411: Toxic to aquatic life with long lasting effects.
H412: Harmful to aquatic life with long lasting effects.

Changes: 2, 3, 4, 5, 6, 7, 8, 9, 11, 12, 16
