Section 1. Identification of substance/mixture and of the company/undertaking.

1.1 Product identifier:
Product name: Eni Coro KSOT 12

1.2 Relevant identified uses of the substance or mixture and uses advised against:
Identified uses: Anticorrosion product, Lubricant
Uses advised against: No uses advised against identified.

1.3 Details of the supplier of the safety data sheet:
Manufacturer/Supplier: Eni Schmiertechnik GmbH
Paradiesstr. 14, D-97080 Würzburg
Tel. (+49) 931 - 900 98-0   Fax (+49) 931-98442
Advising/Support: Technical Department, Tel. (+49) 931 900 98-142
technik.wuerzburg@agip.de
www.enischmiertechnik-datenblaetter.de

Section 2. Hazards identification.

2.1 Classification of the substance or mixture: The product has been classified and labelled as hazardous according to the Regulation (EU) 1272/2008 (CLP).
Classification according to Regulation (EC) No 1272/2008 as amended:
Environmental hazards: Chronic hazards to the aquatic environment, Category 3
Hazard summary: H412: Harmful to aquatic life with long lasting effects
Physical hazards: No data available

2.2 Label elements:
Hazard Statement(s): H412: Harmful to aquatic life with long lasting effects
Precautionary Statement: Prevention: P273: Avoid release into the environment
Supplemental label information: EUH208: Contains Calcium Sulfonate, Ca Sulfonate, Alkylphenyl phosphate, Alkylphosphate, Calcium Sulfonate. May produce an allergic reaction.
Other hazards: By handling of mineral oil products and chemical products no particular hazard is known when normal precautions (item 7) and personal protective equipment (item 8) are kept. The product may not be released into the environment without control.

Section 3. Composition/information on ingredients.

3.2 Mixtures:
General information: Mixture containing severely refined base oils and additives.
Please note that the mineral oils and petroleum distillates used in our products are severely refined and have a DMSO extract < 3% as measured by method IP 346 and are not classified as carcinogenic according to Note L of Annex VI of Regulation EC 1272/2008.

Section 4. First aid measures.

4.1 Description of first aid measures:
Inhalation: Supply fresh air, consult doctor in case of symptoms.
Eye contact: Promptly wash eyes with plenty of water while lifting the eye lids.
Skin contact: Wash with soap and water.
Ingestion: Rinse mouth thoroughly.
4.2 Most important symptoms and effects, both acute and delayed: May cause skin and eye irritation.
4.3 Indication of any immediate medical attention and special treatment needed: Get medical attention if symptoms occur.
Section 5. Fire fighting measures.

5.1 Extinguishing media:
- Suitable extinguishing agents: CO2, extinguishing powder or fog like water spraying. Extinguish larger fires with alcohol resistant foam or spray water with suitable tensides added.
- Unsuitable extinguishing agents: Water with a full water jet.

5.2 Special hazards arising from the substance or mixture:
- During fire, gases hazardous to health may be formed.

5.3 Advice for fire-fighters:
- Move container from fire area if it can be done without risk. Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Collect contaminated fire fighting water separately. It must not enter drains.
- Special protective equipment for fire fighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Section 6. Accidental release measures.

6.1 Personal precautions, protective equipment and emergency procedures:
- In case of spills, beware of slippery floors and surfaces.

6.2 Environmental precautions:
- Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent from spreading (e.g. by binding or oil barriers). Environmental manager must be informed of all major spillages. Do not allow to enter drainage system, surface or ground water.

6.3 Measures and material for containment and cleaning up:
- Absorb with liquid binding material such as sand, diatomite, acid binders, universal binders or sawdust. Dispose of the material collected according to regulations. Stop the flow of material, if this is without risk.

6.4 Reference to other sections:
- See section 8 of the MSDS for personal protective equipment. See section 7 for information on safe handling. See section 13 for information on disposal.

Section 7. Handling and Storage.

7.1 Precautions for safe handling:
- Prevent formation of aerosols. Do not eat, drink or smoke when working with the product. Take usual precautions when handling mineral oil products or chemical products. Observe good industrial hygiene practices. Provide adequate ventilation.

7.2 Conditions for safe storage, including any incompatibilities:
- Local regulations concerning handling and storage of water polluting products have to be followed. Do not heat up to temperatures close to the Flashpoint.

7.3 Specific end use(s):
- Not applicable

Storage class:
- 10, Combustible liquids

Section 8. Exposure controls/personal protection.

8.1 Control parameters:
- Occupational exposure limits: None of the components have assigned exposure limits.

8.2 Exposure controls:
- Appropriate engineering controls: Provide adequate ventilation. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment:
- General information: Wash hands before breaks and after work. Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment. The usual precautionary measures should be adhered to in handling the chemicals or the mineral oil products.

Eye/face protection:
- Safety glasses (EN 166) recommended during refilling.

Skin protection:
Hand protection: Material: Nitrile butyl rubber (NBR).
Min. Breakthrough time: >= 480 min.
Recommended thickness of the material: >= 0.38 mm
Avoid long-term and repeated skin contact. Suitable gloves can be recommended by
the glove supplier. Use skin protection cream for preventive skin protection. Protective
gloves, where permitted in accordance to safety directions. The exact breakthrough
time has to be found out by the manufacturer of the protective gloves and has to be
observed.

Other: Do not carry cleaning cloths impregnated with the product in trouser pockets. Wear
suitable protective clothing.

Respiratory protection: Ensure good ventilation/exhaustion at the workplace. Avoid breathing
vapour/aerosol.

Thermal hazards: No data available

Hygiene measures: Always observe good personal hygiene measures, such as washing after handling the
material and before eating, drinking and/or smoking. Routinely wash work clothing to
remove contaminants. Discard contaminated footwear that cannot be cleaned.

Environmental controls: No data available

Section 9. Physical and chemical properties.

9.1 Information on basic physical and chemical properties:
Appearance:
Physical state: Liquid
Form: Liquid
Colour: Brown
Odour: Characteristic
Odour threshold: Not applicable for mixtures
pH: Not applicable
Freezing point: Not applicable for mixtures
Boiling point: Value not relevant for classification
Flashpoint: 210°C
Evaporation rate: Not applicable for mixtures
Flammability (solid, gas): Value not relevant for classification
Flammability limit – upper (%): Not applicable for mixtures
Flammability limit – lower (%): Not applicable for mixtures
Vapour pressure: Not applicable for mixtures
Vapour density (air=1): Not applicable for mixtures
Density: 0.88 g/ml (15°C)
Solubility(ies):
Solubility in water: Insoluble in water
Solubility (other): No data available
Partition coefficient (n-octanol/water): Not applicable for mixtures
Auto ignition temperature: Value not relevant for classification
Decomposition temperature: Value not relevant for classification
Kin. Viscosity: 27 mm²/s (40°C)
Explosive properties: Value not relevant for classification
Oxidising properties: Value not relevant for classification
9.2 Other information: No data available

Section 10. Stability and reactivity.

10.1 Reactivity: Stable under normal use conditions.
10.2 Chemical stability: Stable under normal use conditions.
10.3 Possibility of hazardous reactions: Stable under normal use conditions.
10.4 Conditions to avoid: Stable under normal use conditions.
10.5 Incompatible materials: Strong oxidising substances, strong acids, strong bases.
10.6 Hazardous decomposition products: Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

Section 11. Toxicological information.

11.1 Information on toxicological effects:
Acute toxicity:
Oral: Not classified for acute toxicity based on available data.
Dermal: Not classified for acute toxicity based on available data
Inhalation: Not classified for acute toxicity based on available data
Skin corrosion/irritation: Based on available data, the classification criteria are not met
Serious eye damage/eye irritation: Based on available data, the classification criteria are not met
Respiratory or skin sensitisation: Skin sensitizer: Based on available data, the classification criteria are not met
Respiratory sensitizer: Based on available data, the classification criteria are not met
Germ cell mutagenicity: Based on available data, the classification criteria are not met
Carcinogenicity: Based on available data, the classification criteria are not met
Reproductive toxicity: Based on available data, the classification criteria are not met
Specific target organ toxicity – single exposure: Based on available data, the classification criteria are not met
Specific target organ toxicity – repeated exposure: Based on available data, the classification criteria are not met
Aspiration hazard: Based on available data, the classification criteria are not met
Other adverse effects: No data available

Section 12. Ecological information.

12.1 Toxicity:
Acute toxicity: Based on available data, the classification criteria are not met
Chronic toxicity: Based on available data, the classification criteria are not met
12.2 Persistence and degradability:
Biodegradation: Not applicable for mixtures
12.3 Bioaccumulative potential: Not applicable for mixtures
12.4 Mobility in soil: Not applicable for mixtures
12.5 Results of PBT and vPvB assessment: The product does not contain any substances fulfilling the PBT/vPvB criteria.
12.6 Other adverse effects: Harmful to aquatic life with long lasting effects
Water hazard class (WGK): 1 – slightly water-endangering
Section 13. Disposal considerations.

13.1 Waste treatment methods:
General information: Dispose in accordance with all applicable regulations.
Disposal methods: Discharge, treatment or disposal may be subject to national, state or local laws.
European Waste Codes: 12 01 07*: mineral-based machining oils free of halogens (except emulsions and solutions)

Section 14. Transport information.

ADR/RID: Non-dangerous goods
ADN: Non-dangerous goods
IMDG: Non-dangerous goods
IATA: Non-dangerous goods
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC-Code: Not applicable

Section 15. Regulatory information.

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:
EU regulations:
Regulation (EC) No. 2037/2000 substances that deplete the ozone layer: None
Regulation (EC) No. 850/2004 on persistent organic pollutants: None
National Regulations:
Water hazard class (WGK): 1, slightly water-endangering
15.2 Chemical safety assessments: No chemical safety assessment has been carried out.

Section 16. Other information.

This information relates only to the specific product and may not be valid if the product is used in combination with any other material or in any process.
The informations in this sheet are according to our best knowledge at the date of printing.

Wording of the R-phrases and H-statements in section 2 and 3:
H412 Harmful to aquatic life with long lasting effects

Changes: 3, 9, 11, 12, 15, 16
