# AGIP Novecento DOT 4

#### **APPLICATIONS**

**AGIP Novecento DOT 4** is a high performance hydraulic brake fluid for use in disc or drum brake systems and in the hydraulic clutch systems of classic cars

#### **CUSTOMER ADVANTAGES**

- AGIP Novecento DOT 4 has a high boiling point that ensures consistent and safe brake performance during exercise
- The product is compatible with rubber components of the braking system of classic cars, preserves the tightness of the gaskets and it reduces leakage and loss of fluid to a minimum
- The product provides excellent protection against corrosion and wear, ensuring greater durability and reliability of the braking system components
- Due to the high oxidation resistance, AGIP Novecento DOT 4 keeps the chemical/physical characteristics of the fluid unchanged for a long time

#### **SPECIFICATIONS - APPROVALS**

- FMVSS 116, DOT 4
- SAE J 1704
- ISO 4925/05 (CLASS 04)

# AGIP Novecento DOT 4

### **CHARACTERISTICS**

Properties	Method	Unit	Typical
Density at 20°C	ASTM D 1298	kg/m³	1040
Viscosity at -40°C	ISO 4925/05-5.1	mm²/s	1000
Dry boiling point	ISO 4925/05-5.2	°C	260
Wet boiling point	ISO 4925/05-5.2.6	°C	163
Flash point	ISO 4925/05-5.2	°C	125

## **WARNINGS**

• Store the brake fluid only in the original container, carefully closed, in order to protect the fluid from moisture
