

Greases

AUTOL Mehrzweckfett

K 2 K-30

Standard multipurpose grease on lithium basis for roller and slide bearings

Characteristics (typical figures)

Soap Basis		Li-12-Hydroxystearat
Temperature range	°C	-30 to +120
Drop point	°C	180
Base oil viscosity at 40°C	mm ² /s	110
Behaviour to water		1 - 90
Corrosion protection properties (EMCOR-Test)		Corr. grade 0

AUTOL Mehrzweckfett is made of specially selected and tested raw materials with special additives. It is of natural colour with a soft consistence and smooth texture.

AUTOL Mehrzweckfett is especially work stable, corrosion and oxidation resistant.

Modern manufacturing procedures, constant inspections of the raw materials and process supervision ensure the constant quality of the product.

Applications:

AUTOL Mehrzweckfett is suitable for the lubrication of roller and slide bearings and other lubrication points to be used at the specified temperature. It is mainly used for trucks, agricultural and constructional machinery. It can also be used for automatic lubricating equipment.

Please observe the manufacturer's specifications when selecting products.
