

Agip metalClean A 310

Agip metalClean A 310 is a not water miscible cleaning agent for various materials.

Characteristics (typical figures):

metalClean A 310		Unit	Test method
Colour	0		
Density (15 °C)	764	kg/m ³	DIN 51 757
Viscosity (40°C)	1,2	mm ² /s	DIN 51 562
Flashpoint	62	°C	DIN ISO 2592
Copper corrosion	1-100A3	Corr.-grade	DIN 51 759

Properties and Performance:

- very good rinsing properties
- no colouration or specking
- very good ageing stability
- chlorine free, low in aromatics

Applications:

Agip metalClean A 310 is suitable for the cleansing of parts made of steel, aluminium and non-ferrous metals.

Information:

Tax-free energy product! Must not be used as fuel or heating material also not for the preparation of those!

Observe the valid VDI Guidelines 3035 and 3397 (1 - 3) when using the product. The product is a water hazardous liquid. The safety relevant data in the Material Safety data sheet have to be observed.

For specific technical questions please contact our technical department. Get information in reference to our training seminar about the subject cooling lubricants.
