

# eni Ribes Rust Remover

**eni Ribes Rust Remover** is a „food grade“ multi-purpose lubricant spray, fully synthetic, colourless, highly penetrating, recommended for the removal of rust, for the release of seized components and for long-term corrosion protection of components and machinery of food, pharmaceutical and cosmetic industries.

## Characteristics (typical values):

eni Ribes Rust Remover		Spray
Appearance/Colour		Transparent and colourless fluid
Base oil		PAO
Propellant		CO <sub>2</sub>
Solvent		Hydrocarbon
Density at 20°C (without solvent)	kg/m <sup>3</sup>	816
Viscosity at 40°C (without solvent)	mm <sup>2</sup> /s	32
Flashpoint (after propellant evaporation)	°C	> 60
Pourpoint (with solvent)	°C	-57
Temperature range (after solvent evaporation)	°C	-50/+180

## Properties and performance:

**eni Ribes Rust Remover** is **NSF H1 approved** and **registered** lubricant recommended for use where an incidental contact with food can occur.

The use of **NSF H1** registered greases is the most effective solution to meet the request of the **HACCP** (Hazard Analysis and Critical Control Point) System.

**eni Ribes Rust Remover** is formulated exclusively with additives listed in the **FDA Group 21 CFR 178.3570** and it is free of:

- genetically modified materials
- main allergens substances like nut oil, soya oil, dairy industry derivatives
- animal derived materials

**eni Ribes Rust Remover** has the following properties and characteristics:

- excellent penetration through rust and scale
- unlocks quickly seized or corroded fillets and mechanisms and protects the parts avoiding possible subsequent seizures
- protects against corrosion for long periods
- resistant to moisture
- leaves no residues and deposits even in high temperature applications
- excellent thermo-oxidative stability
- excellent lubricating and anti-wear properties
- extended relubrication intervals

# eni Ribes Rust Remover

---

## Applications:

**eni Ribes Rust Remover** is recommended for removing rust components and equipment, to unlock screws and bolts heavily rusted and oxidized and for the long-term corrosion protection of agricultural vehicles and machinery in the food, pharmaceutical and cosmetic industries.

## Specifications:

**eni Ribes Rust Remover** is **NSF H1** registered and the package reports the NSF symbol and registration number: 152786

## How to use:

- shake well before use
- spray on the parts to be treated from a distance of 15 – 25 cm
- allowing some time to react

## NOTE

All „food grade“ lubricants should be stored from other lubricants, chemical substances and foodstuffs and out of direct sunlight or other heat sources. Store between 0°C and +40°C.
